<availability> Stock status

<status> Status - "1" means the product is enabled, "2" means the product is disabled

<product_name> Product name

<description> Description

<short_description> Short description

<price> Regular retail price with VAT included

<new_from_date> When from was the product tagged as new

<new_to_date> When to is the product tagged as new

<excelent_choice/> This is a special tag, which can be used as an advice to the customer, for example, Excellent choice

<manufacturer> Product manufacturer, for example, Lenovo

<processor> Processor model, for example, Intel® Core™ i7-620M 2.66 GHz / Dual Core / Turbo Boost 3.33 GHz

<processor_manufacturer> Processor manufacturer, for example, Intel

<processor_model> Processor model, for example, Intel Core i7. This can be used to filter out products with the same processor model

<filter_memory> Amount of RAM memory, for example, 4 GB. This can be used to filter out products with the same amount of RAM

<memory> Amount of RAM memory, for example, 4 GB DDR3

<maximum_memory> MAXIMUM POSSIBLE RAM SIZE

<ram_type> RAM TYPE, E.G., DDR4 SODIMM

<disk> Disk size, for example, 250 GB / 7200 / SATA

<hdd_type> DISK TYPE, E.G., NVME SSD

<screen_size> Screen size, this attribute is used in categories for laptops. For example, 14.1" Premium WXGA (1280x800)

<filter_graphics> Graphics card manufacturer, this can be used as a filter. For example, Nvidia

<graphic_card> The actual model of graphics card, for example, Intel HD Graphics 620

<optical_unit> For example DVD-RW

<card_reader> Does the product have a card reader, for example, yes

<usb> Number of USB connectors, for example, 4x

<usb_c> NUMBER OF USB-C PORTS, E.G., 1x

<video_over_usbc> NUMBER OF USB-C PORTS FAST ENOUGH FOR VIDEO CONNECTION, E.G., 1x

<thunderbolt> NUMBER OF THUNDERBOLT PORTS, E.G., 1x

<displayport> NUMBER OF DISPLAYPORT PORTS, E.G., 1x

<vga> NUMBER OF VGA PORTS, E.G., 1x

<dvi> NUMBER OF DVI PORTS, E.G., 1x

<dockstation_capability> DOES THE LAPTOP SUPPORT DOCKING STATION CONNECTION, E.G., yes

<hdmi/> For example, yes

<wifi> For example, yes

<oper_system> For example, Microsoft Windows 7 Home Premium (64-bit)

<country_origin> Keyboard layout, for example, foreign keyboard, included stickers

<product_condition> Product condition, for example, refurbished

<grade> This represents the grade of the product, for example, Open Box, A+ Quality, A Quality, A- Quality or B Quality

<warranty_months> Warranty in months, for example, 12

<bluetooth> For example, yes

<wwan/> For example, yes

<express_card> For example, yes

<esata> For example, yes

<tv_tuner/> For example, yes

<webcam> For example, yes

<addons/> Other connectors or addons that the product has

<backlit_kb> DOES THE LAPTOP HAVE A BACKLIT KEYBOARD, E.G., yes

<important_notes> IMPORTANT NOTES, E.G., One USB port not working

<fingerprint/> For example, yes

<monitor_max_resolution/> Max monitor resolution, used in monitors and laptop categories. It can be used as a filter, for example, FHD (Full HD) / 1920 x 1080

<monitor_size/> This attribute is used in category monitors, for example, 48,3 cm (19")

<monitor_response_time/> This attribute is used in category monitors, for example, 5 ms

<monitor_inputs/> This attribute is used in category monitors, for example, VGA, DVI, USB

<monitor_contrast/> This attribute is used in category monitors, for example, 800:1

<monitor_luminosity/> This attribute is used in category monitors, for example, 300 cd/m²

<monitor_visibility/> This attribute is used in category monitors, for example, 160/160

<monitor_colors_number/> This attribute is used in category monitors, for example, 16,2 millions

<monitor_pixel_size/> This attribute is used in category monitors, for example, 0,294

<monitor_horizontal_frequency/> This attribute is used in category monitors, for example, 200Hz

<monitor_vertical_frequency/> This attribute is used in category monitors, for example, 200Hz

<monitor_speakers/> This attribute is used in category monitors, for example, no

<display_type> Display type, for example, Matte (AntiGlare, matt)

<filter_lcd> Monitor size, it can be used as a filter, for example, 35,8 cm (14,1")

<weight> Unit weight, for example 2,2
